

**The program of science and practical conference
«Composite materials in civil and military aviation»**

Date: August 19, 2011.

Location: Moscow district, Zhukovskij

Fly ground «Ramenskoe», pavilion «Congress-center», conference-hall 2

Beginning of the registration: 10.30

Beginning of the conference: 11.00

- 10.30 – 11.00 Participants' registration
- 11.00 – 11.35 **«Development and delivery of the complex of equipment and technological materials for production and repair of constructions from composite materials»**
Viktoria Ruppel, general director
Company «STEVIK SAS»
- 11.35 – 12.10 **«Computer engineering analysis in the aircraft industry. Technologies of the designing and analysis of composite materials, constructions and products »**
Andrey Podshivalov, specialist of the Engineering Analysis Department
«Delcam Ural», LLC
- 12.10 – 12.35 **«Reduced Cost of Ownership and Higher Performance for Aircraft industry with OCV FliteStrand®S»**
Maxim Kudryavtsev, sales and marketing manager
«OCV Reinforcements»
- 12.35 – 13.00 **«New epoxy systems for structural aviation composites»**
Tatyana Lapitskaya, General Director
«Epital», CJSC
- 13.00 – 13.25 **«Modern manufacturing technologies of the products from composite materials »**
Denis Grigoriev, Deputy General Director, Commercial
«Tehno-Express», CJSC
- 13.25 – 13.55 **«Equipment for automated laying of the fibers (AFP) and prepregs, machines for prepreg production»**
Dimitar Bogdanovsky, Samoil Samak
Company «MIKROSAM»
- 13.55 – 14.10 **«Machines for biaxial and mutliaxial fabrics production from carbon, glass and aramid fibers »**
Claus-Peter Vendt,
Company «LIBA Maschinenfabrik GmbH»
- 14.10 – 14.35 **«Engineering and equipment for (SQ) RTM technology from the world leader – company RADIUS ENGINEERING»**
Ilya Tarasov, General Director
Company «Carbon Studio»
- 14.35 – 15.00 **«New thermoplastic composite materials for aircraft industry»**
Mikhail Frolov, Head of the Representative
Company «Teijin»
- 15.00 – 15.25 **«Airtech latest developments for vacuum bagging and composite tooling»**
Yuri Yurkin
Company «AIRTECH Europe»
- 15.25 – 15.40 **«Standardization problems in the aircraft industry»**
Denis Zabulonov, standardization expert TK 323
FSUE «SRSI»
